

FaciliWorks 8i Regional Training

Dublin, OH - May 16-17, 2019

This two-day, hands-on training class will take you step by step through planning, preparation, setup and successful operation of FaciliWorks. You'll learn how to save time, avoid common mistakes and get the most out of your software. You'll also learn about advanced topics such as data filtering, system maintenance, system security and more.

Having some basic FaciliWorks experience (or having had Web training) prior to attending regional training allows you to come better prepared with questions and get much more out of the class. You will receive a certificate of completion to provide proof to an auditor that you have received proper training from the software manufacturer.

Class size is limited in order to provide individual instruction and assistance, so make your reservation now.

Who Should Attend

Anyone involved in the implementation or use of FaciliWorks CMMS Maintenance Management Software will benefit from this training.

Schedule

Classes begin at 8:00 am and end at 4:00 pm.

Attire

Please dress casually.

Meals

Lunch and refreshments are included in course fees.
